My ego

- Aleix Pol Gonzàlez
- I study Comptuer Science at FIB/UPC
- I collaborate in KDE by developing KAlgebra (KDE-Edu) and KDevelop

1 Introduction

2 KDevelop4

3 Plugins

4 Kross integration

Idea

What do we want from KDevelop4

- Buildchain integration
- Understanding of what the developer wants to do
- Be able to bring the information to the developer when he needs it

1 Introduction

3 Plugins

4 Kross integration

Plugins

What kind of plugins do we have in KDevelop4?

- Buildtool
- Language
- VCS (Version Control System)
- Anything to be done with the interface

2 KDevelop4

3 Plugins

4 Kross integration

Kross

How does Kross fit in KDevelop4?

- Interface other tools easier by choosing the best library interface (not forced to use C++)
- Write plugins fastly
- Possibility to distribute non-compiled plugins (see KNS)
